

Olympic 5

Huge metal hangar with car access and dedicated production room, restrooms and MUA tables for rent for photo and filming productions

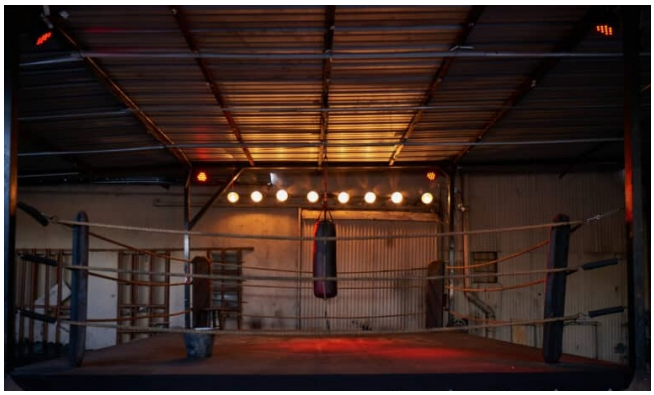

We've added a vintage car to the studio, positioned to the left of the boxing ring. Updated studio photos coming soon.

A heavy punching bag is installed in the center of the boxing ring. If you remove it, you must return it to it's original position before the end of your booking.

Important! It's a self-check-in studio. There will be no employee at the front desk during your booking.

This studio is over 3500 sq. ft in size, not including a separate dedicated production room, 2 restrooms, MUA/changing area, and outdoor covered area (about 2000sq.ft additional). Regular cars can drive in into the hangar and loading are available via gate access. This studio has private parking on site. You can light up top windows from the shipping container roof located outside of the studio.
