

LA Loft 2

Interior photo studio inspired by Scandinavian design.

Christmas decorations for the 2025 holiday season will be installed in this studio between late September and early October, and removed during the first week of 2026. Installation dates may vary. Images will be updated once the decorations are complete.

Important! It's a self-check-in studio. There will be no employee at the front desk during your booking.

LA Loft studios come with included 2 LED panels with light stands, instead of Strobes and C-stands. We don't provide Strobes, light modifiers, c-stands, or backdrops at this location.

Loft 2 is an interior photo studio inspired by Scandinavian design. A lot of large windows make this space a great location for shooting with natural light. Cozy furniture and warm golden hour sun add a lot of charm to this studio.
