

Metro 4

The famous Rain room is back, now located in the Brooklyn area, and features several different rain options and pre-installed RGB lights.

We now have a movable and fillable bathtub at this studio. The instructions how to fill the tub will be provided. Please don't attempt to move the tub when it's full.

Important! It's a self-check-in studio. There will be no employee at the front desk during your booking.

In addition to RGB wall lights we provide 2 GVM LED panels, model 1500D for no extra cost. We don't provide other lights or soft boxes in this studio.

Water may be present on the studio floor between bookings as clients utilize the rain feature.

The overhead white studio light is temporarily not working. Please use vanity mirror lights, RGB lights, and LED panels.

Our new Rain room features a large shooting area with a black tile wall, black block wall, park bench, and some props for your rain shoot. It also has High efficiency water and air heaters to ensure your models stay warm and comfy.
